Bus Interiors & Exteriors

Transit advertising is as innovative as you are and a great alternative to traditional media.

Advertise on the backs of buses. These ads are highly visible in traffic.

They're big. They're beautiful. And, most importantly, they attract attention to your business. Expose your ad to tens of thousands of potential customers every day, seven days a week.

Bus riders are a captive audience. Get your message across with an 11" x 28" interior display ad.

Advertise on the side of the bus. Using large lettering and creative color combinations your ad will be visible from a distance.

Don't be so square! Try custom advertising on the sides of the bus.

The "Michaelangelo" ceiling decal ad is an innovative way to attract customers.

METRO BUS
the people picker-uppers.
